“(Positive Feeling) consumes all Expressions of corresponding negative feeling.”

Dr. Dan Mathews utilizes the Chart of the 70 Expressions of Love in Holy Divine Healing. This Sacred Tones Chart is organized into 10 Octaves of Feelings for each note of the musical scale. Applying the Sacred Tones of the Positive Feelings of Holy Divine Love addresses the discord and dissonance of negative feelings to restore Harmony and Balance within us. The left side lists Feelings when living with/in the first 3 Paradigms of Consciousness of the Patriarchal and Matriarchal Models of Fragmentation, Separation, Hierarchy, Externalized Holiness, Domination & Control, Belief, Fear and Linear Time. The right side lists the corresponding Positive “antidote” Feelings of Divine Love of living in accordance with our Inner Holiness’ Knowing-Consciousness. Positive Emotional Spiritual Energy of our Inner Holiness sustains Harmony & Integrity with All That Is. Feelings are the true communicator, overriding logic. Feeling is perception; emotion is thought *and* feeling, hence energy in motion.

“Paradigms are realities of Consciousness containing Dimensions (e.g. the 13th Paradigm requires 13 dimensions). Feelings create Dimensions which calculate into Consciousness. Feelings are ‘expressions’ with a ‘tone’ which first affect our Holy Spirit. Our Holy Spirit also runs ‘interference’ to protect the Soul as much as possible from the adverse effects of negative feelings. But if chronically negative, feelings congregate in particular areas of the body and may begin to cause problems. Emotions are combinations of thought & feeling, the primary fuel of our Being---highly desirable & unique attributes in our “O”niverse”.

“Negative feelings are generated within from perceptions, seeding reactions to the outer world” (humans often perceive sources and cause of their own negativity as external). Clearing negative residues and perceptions from the human experience is *paramount* for healing *all* dimensions of our Being for *‘Negativity only corrodes the vessel in which it is held’*.

Positive Emotional Spiritual Energy “uplifts *all* aspects of your Being”, and is the “primary fuel” for our Holy Divine Design and Functions. Exercising the element of Action, the numbered Positive Feeling in the 13+D side consumes all expressions of the corresponding negative feeling in the 1st -3rd-D side. Example: *‘Compassion consumes all expressions and feelings of Judgment.’*

**“The Positive Feelings of my Inner Holiness consume all Negative Feelings
of the Fragmentation and Belief of my 10% Conscious Ego.”**

The linear, human-conditioned mind feels most comfortable in analysis, and may attempt to conceptualize the pairings of feelings. Relax the Mind and take your step in Trust~!

The feeling of “Sex” is on both sides of the chart. When created from the Love & Knowing of your Inner Holiness, the expressions of sexuality are Positive, Holy & Divine and in Integrity, Honor and High Regard with All that Is, hence ‘Holy “O” Sex’. Humanized, negative expressions of “sex” encompass distortion, perversion, dysfunction, darkness, manipulation and oppression created from belief, fear, imbalance and injustice.

“Right” refers to “feeling right within yourself”, rather than as the opposite of ‘wrong’.
